

# 2017 Legislators Listed By Legislative District

Below is a list of the 2017 Legislators. Legislators with an “n” next to their district number are new legislators.

## How To find your Legislators by your Legislative District:

1. Go to <http://app.leg.wa.gov/DistrictFinder> , input your address and click on “Find My District” and it will list your legislative district and your legislators. After you know your Legislative District, use the list below to find your legislators’ phone numbers and email addresses.
2. A second way is for you to call **1-800-562-6000** - the **Legislative Hotline** - and the attendant will help you identify your legislators and your legislative district. The attendants will also take your message for your legislators and deliver your message to your legislators on the issues important to you. After you know your Legislative District, use the list below to find your legislators’ phone numbers and email addresses.

## Double Your Clout

If your business is located in a separate legislative district from your home, contact your legislators where your home is and then also contact the legislators where your business is located.
